Finding Life In the City

UPDATE AND PRAYER NEEDS

News from the project office:

The pews are almost out of St Peter's and all of them now have homes.

Signs have been placed on the gates of St Peter's informing the public of what is happening and why. There will be a Facebook page and regular written updates once work commences.

We are awaiting a final decision from the Chancellor in London as the faculty granted last year had to be amended. Regular and frequent communication is being kept up with his office.

The building work itself is now subject to tender.

A number of people have asked if they can donate specific items for the renewed building. A list of additional equipment and furnishings will be published in September.

Notices have gone out to ask anyone who owns anything in St Peter's to either remove it (with our thanks for its use) or arrange with Janet Strevens or me to have it stored (we have limited storage, so if you can offer some that would be great).

The last service in the church will be the 10.30 am, Sunday 31st July. Services will be held in the main hall in Church House from August 7th.

Prayer Needs

- Pray for the Chancellor's office!
- Pray for a smooth transition into the building phase.
- Pray for the congregation of St Peter's as they say goodbye to the building as it is.
- Pray for continued vision for the use of a renewed building.
- Pray that we will not lose sight of God in the busyness.

Blessings on you all.
